MORE TO EXPLORE THAN EVER BEFORE

As renowned archaeologist Dr. Harold Carver, you've searched for the elusive tomb of Tutankham for years. As you peer into what seems to be an ordinary gap between some rocks, you catch a glimmer of something inside. Is that gold? Or was something moving in there? As you squeeze inside, a tunnel opens up in front of you, but the entrance collapses! You have no choice now but to press forward. Will you find treasure – or only the Pharaoh's curse?

CHAMP GAMES is pleased to announce our latest release for the Atari 2600: Tutankham Arcade! Featuring all of the action, levels, and enemies of the arcade classic, we've added even more tombs to explore, creatures to battle, treasures to discover and our exclusive CHALLENGE mode! Features QuadTari support for dual-Joystick setups and SaveKey/AtariVox support for high scores.

Scramble
CG-203

All of the intense action of the original arcade classic finally comes home to the Atari 2600! Battle your way through five stages of fierce enemies and challenging terrain, infiltrate their base and take out the command center! Your reward will be... having to do it all over again, but against even fiercer opponents! Featuring Gamepad support, multiple difficulty options and SaveKey/AtariVox support for high scores.

Super Cobra Arcade
CG-204

Was Scramble not enough of a challenge for you? Super Cobra Arcade ramps up the difficulty to eleven: with ten stages to battle through and an even tougher enemy base to infiltrate where you have to swoop in dangerously low and capture the enemy's treasure! Every stage, enemy, obstacle and terrain have been faithfully recreated for the ultimate arcade experience! Featuring Gamepad support, multiple difficulty options and SaveKey/AtariVox support for high scores.

Mappy
CG-205

Those darn cats! Cat burglars have been on a crime spree, and have holed-up with all of their stolen loot in old abandoned houses. As the fearless police-mouse Mappy, you must chase them down, retrieve the valuables, and use a variety of tricks and booby-traps to keep the cats off your tail! Includes all of the stages, bonus rounds, enemies and obstacles from the arcade game. Featuring multiple difficulty options and SaveKey/AtariVox support for high scores.

Wizard of Wor Arcade
CG-206

"I am the Wizard of Wor!" The voice echoes in your ears as you desperately look for a way out - but there are none! Only dungeon after dungeon of terrifying creatures, with the Wizard ever-present, taunting you at every turn! All of the action, enemies, dungeons and voices from the arcade classic are here! Battle it out alone or with a friend. You can also create and save your own custom mazes! Features AtariVox support for voices and high score saving, and QuadTari support for two-player games with the AtariVox.

Galagon
CG-207

The all-time arcade classic comes to the Atari 2600 in a version which captures all of the action of the original. Every enemy, every formation, every bonus stage and feature from the original are here! Blast your way through wave after wave of dive-bombing enemies! Beware of the boss ships who will try to steal your ship out from under you - but if they do, you can turn the tables on them by stealing it back and doubling your firepower! Features special CHALLENGE mode and SaveKey/AtariVox support for high scores.

Zoo Keeper
CG-209

Zeke the Zoo Keeper just can't catch a break. Not only are animals escaping from the zoo, but some mischievous monkeys have trapped his girlfriend! Zeke must round up the animals, rebuild the broken walls of the zoo, rescue his girlfriend, and save the day! Zeke can only capture animals when a net appears, otherwise he must leap over them. The more animals he leaps over, the more bonus points he earns. How many can you jump over - and can you capture the elusive lions? Featuring multiple difficulty options and SaveKey/AtariVox support for high scores.

RobotWar:2684
CG-210

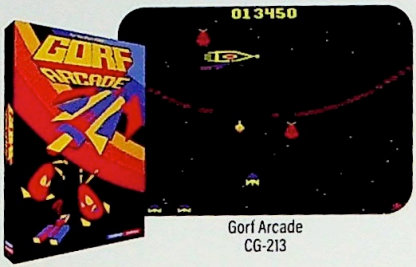
You are humanity's last hope! Robots have decided mankind must go, and it's up to you to save them! Blast your way through hordes of enemy robots and rescue the last surviving humans before they're destroyed, or worse - mutated into mindless killers! The "game that couldn't be done" on the 2600 brings all of the intense action of the arcade classic home with as many as 100 objects on screen at once, and adds a two-player simultaneous co-op mode to the mix! Features QuadTari support for dual-joystick setups and SaveKey/AtariVox support for high scores.

Lady Bug Arcade
CG-211

We made our first, best-selling version of Lady Bug as one of our earliest 2600 games. Now we've remade it utilizing everything we've learned in the years since, making it even better and more arcade-accurate in every way! Featuring an authentic maze with independently opening gates, Lady Bug Arcade adds new features including: three additional mazes, two-player options (including simultaneous play), and a CHALLENGE mode featuring a devious new spider! Features QuadTari support and SaveKey/AtariVox support for high scores.

Qyx
CG-212

Action, strategy and puzzle games all meet up in Qyx! Draw lines and create shapes to capture areas of the playfield. But watch out! If the pulsating, swirling Qyx doesn't crash into you, the Sparx will chase you down and take you out. When faced with two Qyx - do you pin them both into a corner, or split them for a chance at extra bonus points? Qyx features the action and strategy of the arcade classic, and adds two-player simultaneous modes and a CHALLENGE mode with power-ups and tougher enemies. Features QuadTari support and SaveKey/AtariVox support for high scores.



Gorf Arcade
CG-213

"You will meet a Gorfian Doom, Space Cadet!" The aliens came out of nowhere, attacking your home planet, and mercilessly taunting you to do something about it! You leap into your space fighter and blast off - battling through waves of attacking aliens, and taking the battle to the Gorfian Empire itself! Climb up through the Space Ranks to earn exclusive patches! Featuring all five stages and all of the voices from the arcade original, plus CHALLENGE mode for only the most expert pilots! Features AtariVox support for voices and high score saving.

Turbo Arcade
CG-214

Start your engines! It's a cross-country race of epic proportions through breathtaking scenery and treacherous conditions. Pass as many cars as you can before time expires while avoiding crashes and road hazards! All of the stages from the arcade game have been recreated with stunning "3D" graphics; plus there are three all-new tracks, weather effects, time-of-day changes, a desert environment and even more in our CHALLENGE mode! Features SaveKey/AtariVox support for high scores, and support for Driving Controllers, Paddles, Gamepads and Joysticks!

Elevator Agent
CG-215

You're Secret Agent 23 on a mission to infiltrate the enemy's headquarters and steal their Top Secret plans. Working your way through the building, you must dodge or dispatch enemy agents hiding behind every door, while making your way to the basement and your waiting getaway car. Can you steal all of the plans and make your escape? Features all of the levels from the original arcade game, three all-new sets of levels, CHALLENGE mode with power-ups and double-agents, and a two-player Versus mode. Supports Gamepads, and SaveKey/AtariVox for high scores.
